Town of Meeteetse WYO 120 & 290 Study

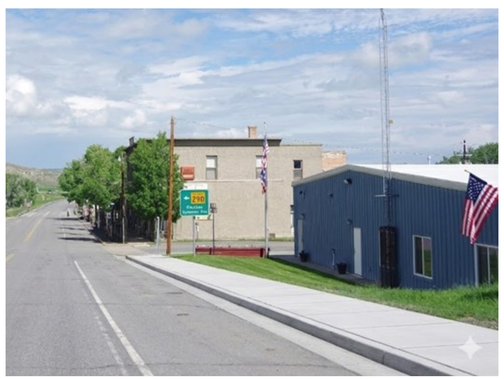
Goals / Outcome

The core objective is to achieve ADA accessibility compliance and enhance pedestrian safety while preserving the unique 'Old West' character of downtown Meeteetse.

- Address ADA accessibility barriers along the commercial core
- Improve pedestrian connectivity and safety
- Bring corridor elements into conformance with state and federal requirements
- Preserve the unique character of downtown Meeteetse
- Identify a feasible, community-supported plan for future implementation

Proposed Improvements

- Sidewalks maintained close to storefronts
- Possible alternative to "Boardwalk" aesthetic using resilient materials.
- 7-ft continuous boardwalk either side of state street (Water Ave – Park Ave)
- 7-ft continuous concrete sidewalk either side of Park Ave (State St – Warren St)
- Asphalt buffer replaced by landscape/sod between sidewalk and curb
- 5-ft continuous attached concrete sidewalk either side of state street (Park Ave – Highland Ave)



Existing

Proposed
